Introducing a new way to save money and cover your fees

at Jonathan Best
Opticians

“My philosophy has always been to offer you the very best service and this includes an unbeatable range of savings and benefits with our Eyecare Membership.”

Jonathan Best MCOptom
Optometrist and Director

Enhancing what the NHS provide

With only a basic sight test available under the NHS, providing you with additional services such as retinal and OCT imaging, follow-up clinical assessments and longer, more thorough examinations means you often have to pay towards the type of enhanced eyecare you've come to expect.

The solution . . .

When you join our Eyecare Membership our enhanced services are included along with a great range of savings and benefits simply not available anywhere else locally. There's also comprehensive eyewear cover and the opportunity to spread the cost of your new glasses, interest free.

When you become a member you are also supporting our continued investment in the latest diagnostic technologies and allowing us to further enhance the service we offer to both private and NHS patients.

Contact lenses

For lens wearers, the additional savings and benefits mean your monthly payments provide a whole lot more than just your lenses and solutions, making our Eyecare Membership simply unbeatable.

Joining is simple and you'll start saving straight away so speak to one of my team today . . .
